Note 1: If it cannot be determined, it is recommended to ask the manufacturer to provide an explanation or documentation proving that it is not a Mainland China brand.

Note 2: The information on Mainland China investments in the information industry and Mainland China investments in Taiwan can be found through the Ministry of Economic Affairs Investment Commission. It is still unclear whether these businesses' ICT products produced and sold in Taiwan are recognized as Mainland China brands and restricted from use. As a principle, it is recommended to avoid purchasing them as much as possible.
